DETAILED ACTION

The amendment filed 12/18/07 and the remarks presented therewith have been carefully considered. However, they are not deemed to be fully persuasive.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-6, 12, 13, 16, 21, and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Lindstrom (2003/0189348).

Lindstrom shows an embodiment of a hoisting frame in Figure 4 having hoisting cable attachable to the upper side thereof and twist-lock means (3) on an underside of adjustable frame portions (6,7). These portions (6,7) of the hoisting frame are adjustable between extended and retracted positions and are *capable* of picking up certain secondary frames of various dimensions so long as the secondary frames can accommodate the twist locks (3). It is pointed out that the above claims of the instant application do not positively recite the secondary frames as part of the “hoisting frame”,

but only that the secondary frames are capable of being used with the claimed hoisting frame.

Allowable Subject Matter

3. Claims 7-11, 14, 15, 17-20, 22, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

4. The abstract of the disclosure is objected to because it is more than one paragraph in length and contains legal phraseology such as "means" which should be avoided. Correction is required. See MPEP § 608.01(b).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
